mary.ferris@sealedair.com

Secretary **Eugene Gill**
864-281-8627
wsaiche@yahoo.com

Treasurer **Rick Vogel**
864-281-6702
rick.vogel@fluor.com

Get ready for National Engineers Week 2002!

National Engineers week is February 17 - 23 this year. Engineers and other technical professionals have an opportunity to promote engineering and science to middle and high school youth by participating in the Discover E visits.

The Piedmont Chapter of the South Carolina Division of NSPE is sponsoring the Discover E visits for Greenville County plus Anderson, Abbeville, Pickens, Oconee, Greenwood and Laurens counties. The last several years, coordinators and volunteers from ASME, NSPE, IEEE, CESC, AIChE, ASHRAE and

ASCE as well as major companies and small independent firms have participated in this worthwhile project.

Please consider helping with this important effort. Last year, 30 out of 32 schools in Greenville County were involved, and we would like to see more involvement in Anderson, Oconee, Pickens, and Greenwood Counties...especially in Laurens and Abbeville where no Discover E visits occurred.

If you're interested in volunteering, please contact Jim Roberts at 864-281-5149 or jim.roberts@fluor.com.

February Meeting

Our speaker this month is Professor Jim Goodwin from Clemson University. RSVP to the secretary.

Date: Tuesday, February 19, 2002
Time: 6:30 p.m.
Location: Holiday Inn, Augusta Rd & I-85
Cost: \$12/\$15(members/non-members)

" SCIES the Limit "

Western SC AIChE would like to thank Dr. Larry Golan from the South Carolina Institute for Energy Studies for his very informative presentation on energy and energy saving projects that our nation is involved in. He spoke in detail about the Energy Lab at Clemson where students are allowed to work at the facility to collect data which is shared online to other power plants, et. al. Another project is a collective of 97 universities, 7 corporations, and 2 utility groups who are focused on engineering more efficient, less polluting, electric generation plants. Check out their website for more info: <http://cufp.clemson.edu/scies/>

e-Mail and Your Local Section Newsletter

We have been encouraging members of our section to update their information at the AIChE website at the link below: www.aiche.org/membership/change.asp and to provide their e-mail addresses. This enables us to send out many newsletters electronically, saving time and money.

In recent months it has become apparent that more and more of these newsletter e-mails are being caught up in firewalls and spam filters. The result is that some members are not receiving them. Company addresses are the most affected.

For this reason, the next newsletter is going out by snailmail. Those of you who are on the e-mail distribution list will receive the electronic version as well. If you do not receive it, please check your junk mail or filters, or speak to your local postmaster. If in doubt, contact the Secretary.

Remember that your information, including e-mail address, is kept private. The newsletter is sent from an ATT Worldnet account, with recipients BCC'ed.

See our website at <http://wscaiche.n3.net>

Suggestions for improvement are welcome!

AIChE
