February Meeting – Thank You

Special thanks go out to our speaker, Dr. Edgar Lotero. He provided an excellent discussion of his research on solid phase biofuels catalysis. His talk helped us understand the real challenges of “how does this work?”. Attendees had lots of interest and posed many questions. We had 22 members and 14 Clemson students in attendance. Biofuels are becoming more important to each of us, to our nation, and to the environment.

Kids' Engineering Day at Roper Mountain Science Center.

Western South Carolina AIChE along with Fluor Engineers hosted the third annual “Kids Engineering – Making It Matter” Science Workshop for National Engineer’s Week, on Saturday, February 9, 2008. A series of engineering and science activities were available for all kids to enjoy and experience. The activities were also designed to allow Webelos Cub Scouts to earn the “Engineer” and “Scientist” activity badges. Junior Girl Scouts could earn the “Making it Matter”

activity badge and older Girl Scouts, the Chemistry Interest Project Award. In total, approximately 300 youth attended this event.

Sharing Our Goals

We have had great success with significant increase in attendance at our 2007/08 meetings. Our chapter goal is to continue recruitment and continued participation by members. Please consider joining us at our next meeting. This year, we offer members a \$5.00 dinner saving at each meeting. It's not too late to become a local member. Please send Teresa Cheung (teresa.cheung@fluor.com) or David Laursen (sec@wscaiche.org) an e-mail for more information.

March Meeting Notice

Mr. Gregg Herreman will discuss containment of potent pharmaceutical compounds. This technology is critical for limiting operator exposure in the manufacture of final dosage forms such as tablets and capsules. Gregg has 27 years of pharmaceutical and biotechnology experience. Gregg's other expertise is Good Manufacturing Practices (GMP) meet Federal CFR 21 guidelines.
